

Does your current outdoor security need a little help?

Securing the entire backyard is a tough job, so pick the right guard for the job. The Detection Systems OD850 Outdoor TriTech PIR/Microwave Intrusion Detector is always on the alert. Advanced detection technologies offer outstanding catch performance while LTD Technology virtually eliminates false alarms caused by tree branches and hanging signs. If your current outdoor security could use a little help, choose the OD850 for security and peace of mind.
