WiseNet HD+

Superior Full-HD images in one complete solution

Samsung's analogue HD solution provides better performance than existing analogue products. The AHD series can transmit 2M Full-HD images through the standard coaxial cable at a distance up to 500m without any additional adaptors required.

It is compatible with existing analogue cameras without changing the cable, providing a flexible and cost efficient solution.

If you want to use a more advanced analogue product, the **WiseNet HD+** is your best choice.

Advantages of WiseNet HD+

- Superior 1080p Full-HD Solution
- Full-HD video transmission distance up to 500m
- Cost-effective solution with lower setup costs
- No adaptors required for analogue and WiseNet HD+
- Easy installation compared to network systems

WiseNet HD+ Cameras

- Full-HD 1080p high resolution
- Min. 0Lux low light and Day & Night(ICR) features
- Full-HD video transmission up to 500m

SAMSUNG

Simple and Flexible solution

As the DVR featuring the AHD technology is compatible with both the AHD camera and general analogue cameras, the user can avoid the expense of additional adaptors or changing their system.

Furthermore, when upgrading to the AHD system, you don't have to purchase an additional cable separately as it is possible to transmit AHD images via the existing cable, which also saves money.

Existing Analogue Camera

WiseNet HD+ HD Camera

Easy Installation

Compared to a complex network system, AHD technology is easy to install while it provides 2MP high quality image. As it uses the same installation procedure as the existing analogue system and does not require any specific prior knowledge, you can save time and effort compared to a network system.
