Compliance Information

The NV-842 StubEQ and the NV-1642 StubEQ comply with or have obtained Regulatory Agency approvals at least against the following standards:

- EMC – Emissions FCC Part 15, ICES-003, EN 61000-6-3:2007 + A1 (class B)
- EMC – Immunity EN 50130-4:2011
- Safety IEC 60065:2001+A1+A2, EN 60065:2002+A1+A2+A11+A12, UL 60065 2007 12-11, CAN/CSA C22.2 No. 60065-03 2006-04 + A1

EN 61000-6-3 and IEC 61000-6-4 – Class B statement

These models are Class B.

FCC Part 15 Statement

This digital equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. However there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult NVT Inc. Technical Support for assistance

ISED Statement

This digital equipment does not exceed Class B limits for radio noise emissions for digital apparatus, set out in Radio Interference Regulation of ISED Canada.

Operation in a residential area may cause unacceptable interference to radio and TV reception requiring the owner or operator to take whatever steps necessary to correct the interference.

Notice d'ISDE

Cet équipement n'émet pas de bruits radioélectriques dépassant les limites applicables aux appareils numériques de la Classe B prescrites dans le Règlement sur le brouillage radioélectrique établi par l'ISDE Canada. L'exploitation faite en milieu résidentiel peut entraîner le brouillage des réceptions de radio et de télévision, ce qui obligerait le propriétaire ou l'opérateur à prendre les dispositions nécessaires pour en éliminer les causes.

EU Directives: EMC + Safety + RoHS

The form is a Declaration of Conformity for NVT PHYBRIDGE. It is enclosed in a decorative blue border. At the top center is the NVT logo, which consists of the letters 'NVT' in white on a blue square background with a stylized wave below it. Below the logo, the title 'DECLARATION OF CONFORMITY' is centered in bold. The text reads: 'We NVT declare under our sole responsibility that the models: NV-842 StubEQ NV-1642 StubEQ to which this declaration relates, are in conformity with the following European Directives:'. This is followed by a list of directives: 2014/30 (EMC), 2014/35 (Safety), and 2011/65 (RoHS Recast). Then, it states 'The standards used to show compliance are:' followed by a list: EN 61000-6-3 (2007 + A1), EN 50130-4 (2011), EN 60065 (2002 + A1 + A11 + A12 + A2), and EN 50581 (2012). Next, it says 'The technical file is kept at:' followed by the address: NVT, 3457 Superior Court, Unit 3, Oakville, Ontario L6L 0C4, Canada. The date 'Oakville, 26 January 2017' is printed, followed by a signature of John Croce, CEO. Waste Electrical and Electronic Equipment – WEEE

The WEEE (Waste Electrical and Electronic Equipment) legislation aims to raise the level of recycling of electrical and electronic equipment and to encourage designers to create products with recycling in mind.

The NV-842 StubEQ, NV-1642 StubEQ and associated equipment (Power supply, etc.) that you bought have required the extraction and use of natural resources for their production. They may contain hazardous substances that could impact health and the environment.

In order to avoid the dissemination of those substances in our environment and to diminish the pressure on the natural resources, we encourage you to use the appropriate take-back systems. Those systems will reuse or recycle most of the materials of your end-of-life equipment in a sound way.

The crossed-out wheeled bin symbol invites you not to dispose of WEEE as unsorted municipal waste and to collect such WEEE separately.

If you need more information on the collection, reuse and recycling systems, please contact your local or regional waste administration.

You can also contact us for more information on the environmental performances of our products.
